UK COLLEGE ONLINE

Information Technology Bachelor Program

Empower Your Future with

Cutting-Edge IT Programs

- ✓ Great Career Opportunities
- ✓ Globally Recognized
- ✓ Supported Distance Learning
- ✓ Tuition Fee – Up To 60% less

Qualification

Bachelor's Degree in Business Computing and Information Systems
Level 5 Extended Diploma & Top-Up (Final Year) by University of Central Lancashire (UCLAN)

Programme Overview

The rationale for this qualification is to offer a career path for learners aiming to develop a broad base of knowledge and skills, enabling them to work in various roles within the IT industry, particularly in .NET programming, system administration, and network security. Additionally, learners will gain insights into entrepreneurship within a technological environment.

The Level 5 Extended Diploma program is equivalent to the first two years of a formal UK University Education and leads to the final year of the Bachelor's degree from University of Central Lancashire (UCLAN).

Study Method
Distance Learning

Entry Requirements
High School Diploma or Level 3 Qualification
